CARLOS HERNÁNDEZ

UX/UI DESIGNER

I know, I have an atypic profile, but that doesn't mean I haven't the capacity to do the job or learn new stuff.
I worked several years in administrative area, I'm a fast-learning person, even unknowing design I learned quickly, I don't want a routine I want enjoy what I'm doing, so believe me when I say I found my vocation, all my jobs leaved me a knowledge so I learned to develop soft skills trough years like manage my emotions, work under pressure, active listen and assertive communication to be better.
